

Transcript of Dr. Reiner Fuellmich Summary of his legal case, Crimes Against Humanity, Second Nuremberg Tribune. Rev.0

This is the initial computer generated transcript of Dr. Reiner Fuellmich's case summary. No changes have been made at this time. Its revision number is 0

(00:04):

Hello. I am Reiner Fuellmich, and I have been admitted to the bar in Germany and in California for 26 years, I have been practicing law primarily as a trial lawyer against fraudulent corporations, such as Deutsche bank, formerly one of the world's largest and most respected banks today. One of the most toxic criminal organizations in the world, VW, one of the world's largest and most respected car manufacturers today, notorious for its giant diesel fraud and Kuna and Naga, the world's largest shipping company. We're suing them in a multimillion dollar bribery case. I'm also one of four members of the German Corona investigative committee. Since July 10th, 2020. This committee has been listening to a large number of international scientists and experts, testimony to find answers to questions about the Corona crisis, which more and more people worldwide are asking. All the above mentioned cases of corruption and fraud committed by the German corporations pale and comparison in view of the extent of the damage that the Corona crisis has caused and continues to cause. This Corona crisis, according to all we know today must be renamed a Corona scandal and those responsible for it must be criminally prosecuted and sued for civil damages on a political level.

(01:34):

Everything must be done to make sure that no one will ever again be in a position of such power as to be able to defraud humanity or to attempt to manipulate us with their corrupt agendas. And for this reason, I will now explain to you how and where the international network of lawyers will argue this biggest tort case ever. The Corona fraud scandal, which has meanwhile unfolded into probably the greatest crime against humanity ever committed. Crimes against humanity were first defined in connection with the Nuremberg trials after World War Two. That is when they dealt with the main war criminals of the Third Reich. Crimes against humanity are today regulated in section seven of the international criminal code.

The three major questions to be answered in the context of a judicial approach to the Corona scandal are one, is there a Corona pandemic or is there only a PCR test pandemic specifically, does a positive PCR test result mean that the person tested is infected with COVID-19 or does it mean absolutely nothing in connection with the COVID-19 infection

(02:50):

To do

(02:51):

The so-called anti Corona measures such as the lockdown, mandatory face masks, social and quarantine regulations serve to protect the world's population from Corona, or do these measures serve only to make people panic so that they believe without asking any questions that their lives are in danger. So that in the end, the pharmaceutical and tech industries can generate huge profits from the sale of PCR tests, antigen and antibody tests and vaccines, as well as the harvesting of our genetic fingerprints. And three, is it true that the German government was massively lobbied more so than any other country by the chief protagonists of this so-called pork Corona pandemic, Mr. Dresden virologist at shoddy Taylor hospital in Berlin, Mr. Wheeler veterinarian, and head of the German equivalent of the CDC, the RKI and Mr. [inaudible] head of the world health organization, or who because of Germany is known as a particularly disciplined country and was there for, to become a role model for the rest of the world for its strict. And of course, successful adherence to the Corona measures answers to these three questions are urgently needed because the allegedly new and highly dangerous Corona virus has not caused any excess mortality anywhere in the world. And certainly not here in Germany, but the anti Corona measures whose only basis, uh, the PCR test results, which are in turn all based on the German trusted test have in the meantime, caused the loss of innumerable human lives and have destroyed the economic existence of countless companies and individuals worldwide

(04:44):

In Australia. For

(04:45):

Example, people are thrown into prison. If they do not wear a mask or do not wear it properly as deemed by the authorities in the Philippines, people who do not wear a mask or do not wear it properly in this sense are getting shot in the head. Let me first give you a summary of the facts that they present as they present themselves today. The most important thing in a lawsuit is to establish the facts that is to find out what actually happened. That that is because the application of the law always depends on the facts at issue. If I want to prosecute someone for fraud, I cannot do that by presenting the facts of a car accident. So what happened here regarding the alleged Corona pandemic, the facts laid out below are to a large extent, the result of the work of the co Corona investigative committee.

(05:39):

This committee was founded on July 10th by four lawyers in order to determine through hearing expert testimony of international scientists and other experts. One, how dangerous is the virus really to what is the significance of a post positive PCR test three, what collateral damage has been caused by the Corona measures? Both with respect to the world's population's health and with, with respect to the world's economy. Let me start with a background, a little bit of background information. What happened in May, 2019 and then in early 2020, and what happened 12 years earlier with the swine flu, which many of you may have forgot gotten about in may of 2019, the stronger of the two parties, which governed Germany in a grand coalition, the CDU held a Congress on global health, apparently at the instigation of important players from the pharmaceutical industry and the table industry

(06:42):

At this Congress,

(06:44):

Usual suspects, you might say gave their speeches. Angela Merkel was there and the German secretary of health

(06:51):

Yan spawn, but some other people who, when would not necessarily

(06:57):

Expect to be present at such a gathering, we're also there professor Drestin virologists from the shoddy T hospital in Berlin, professor Wheeler, veterinarian, and head of the RKI, the German equivalent of the CDC, as well as Mr. [inaudible] philosopher and head of the world health organization,

(07:19):

Who they all gave speeches there also,

(07:22):

And giving speeches where the chief lobbyists of the world's two largest health funds, namely the bill and Melinda gates foundation and the Wellcome

(07:31):

Trust less than a

(07:33):

Year later. These very people called the shots in the proclamation of the worldwide Corona pandemic made sure that mass PCR tests were used to

prove mass infections with COVID-19 all over the world and are now pushing for vaccines to be invented and sold worldwide wide, these infections, or rather the positive test results that the PCR tests delivered in turn became the justification for worldwide lockdowns, social distancing, and mandatory face masks.

(08:07):

It

(08:08):

Is important to note at this point that the default definition of a pandemic was changed 12 years earlier until then a pandemic was considered to be a disease that spread worldwide and which led to many serious illnesses and deaths suddenly. And for reasons never explained it was supposed to be a worldwide disease, only many serious illnesses, and many deaths were not required anymore to announce a pandemic due to this change, the who, which is closely intertwined with the global pharmaceutical industry was able to declare the swine flu pandemic in 2009, with the result that vaccines were produced and sold worldwide on the basis of contracts that have kept secret until today, these vaccines prove to be completely unnecessary because the swine flu eventually turned out to be a mild flu and never became the horrific plague that the pharmaceutical industry and its affiliated universities kept announcing. It would turn into with millions of deaths, certain to happen. If people didn't get vaccinated, these vaccines also led to serious health problems, about 700 children in Europe, fell incurably ill with narcolepsy and are now forever severely

(09:30):

Disabled. The vaccines bought

(09:33):

With millions of taxpayers. Money had to be destroyed with even more taxpayers' money already then during the swine flu the German virus. Well just Rustin was one of those who stirred up panic in the population repeating over and over again, that the swine flu would claim many hundreds of thousands, even millions of deaths. So all over the world in the end, it was mainly thanks to Dr. Wolf gunk, Voda and his efforts as a member of the German Bundes talk and also a member of the council of Europe that this hoax was brought to an end before it would lead to even more serious crimes consequences, fast forward to March of 2020, and the German Belinda's talk announced an epidemic situation of national importance, which is the German equivalent of a pandemic in March of 2020. And based on this, the lockdown with the

suspension of all essential constitutional rights for an unforeseeable time, there was only one single opinion on which the federal government Germany based

(10:39):

Its decision, an

(10:42):

Outrageous violation of the universally accepted principle, Audi Audra, ultra parse, which means that one must also hear the other side. The only person they listened to was Mr. Drestin. That is the very person whose horrific panic inducing prognosis had proved to be catastrophic the falls 12 years earlier. We know this because a whistleblower named David Seba, a member of the green party told us about it. He did. So first on August 29th, 2020 in Berlin, um, in the context of an event at which Robert F. Kennedy Jr also took part and at which both men gave speeches and he did so afterwards. And one of the sessions of our Corona committee, the reason he did this is that he had become increasingly skeptical about the, the official narrative propagated by politicians and the mainstream media. He had therefore undertaken an effort to find out about other scientists opinions and had found them on the internet there. He realized that there were a number of highly renowned scientists who held a completely opinion, which contradicted the horrific prognoses of Mr. Drugs.

(11:58):

They assumed and stuff still do assume

(12:01):

That there was no disease that went beyond the gravity of the seasonal flu that the population had already acquired cross or T-cell immunity against this allegedly new virus. And that there was there for no reason for any special measures. And certainly not for vaccinations. These scientists include professor John UN nitas of Stanford university in California, as specialist in statistics and epidemiology, as well as public health. And at the same time, the most quoted scientists in the world, professor Michael Levitt, Nobel prize winner for chemistry and Al and also a biophysicist at Stanford university, the German professors, Connie Merlin, sushi bakhti Klute Witkowski as well as Stefan humbug and now many, many more scientists and doctors worldwide, including Dr. Mike Eaton, Dr. Mike Gaetan is the former vice president and scientific director of Pfizer. One of the largest pharmaceutical companies in the world. I will talk some more about him a little later at the end of March, beginning of April of 2020, Mr.

(13:11):

Siebert turned to the leadership of his green party with the knowledge he had accumulated and suggested that they present these other scientific opinions to the public. And explain that contrary to Mr. Dustin's doomsday prophecies. There was no reason for the public panic incidentally Lord assumption, who served as the judge at the British Supreme court from 2012 to 2018, had the V had done the very same thing at the very same time at tat come to the very same conclusion that there was no factual basis for panic and no legal basis for the Corona measures. Likewise, the former president of the German federal constitutional court expressed albeit more cautiously serious doubts that the Corona measures we're constitutional, but instead of taking note of these other opinions and discussing them with David Sieber, the green party leadership declared that Mr. Dustin's panic messages were good enough for the German party, uh, for the green party.

(14:15):

Remember, they're not a member of the ruling core coalition, they're the opposition still. That was enough for them

(14:24):

Just as it had been good enough for the federal government as a basis for its lockdown decision. They said they subsequently the green party leadership called David Sieber, a conspiracy theorist without ever having considered the content of his information and then stripped him of his mandate. Now let's take a look at the current actual, the situation regarding the viruses danger, the complete uselessness of PCR tests for the detection of, and the lockdowns based on non-existent existent infections. In the meantime, we know that the health care systems were never in danger of becoming overwhelmed by COVID-19

(15:04):

On the contrary. Many hospitals

(15:06):

Remain empty to this day and some are now facing bankruptcy, the hospital ship comfort, which anchored in New York at the time, and could have accommodated a thousand patients, never accommodated more than some 20 patients. Nowhere was there any access excess mortality studies carried out by professor Yuan Nita's and others have shown that the mortality of Corona is equivalent to that, of the seasonal flu, even the pictures from Bergamo and New

York that were used to demonstrate to the world that panic was an order proved to be deliberately

(15:41):

Misleading. Then

(15:43):

The so-called panic paper was leaked, which was written by the German department of the interior. It's classified content shows beyond a shadow of a doubt that in fact, the population was deliberately driven to panic by politicians and mainstream

(15:59):

Media, the accompanying

(16:02):

Irresponsible statements of the head of the RKI. Remember the CDC, uh, Mr. Wheeler, who repeatedly and excitedly announced that the Corona measures must be followed unconditionally by the population without them asking any question shows that the, that he followed the script verbatim in his public statements, he kept announcing that the situation was very grave and threatening. Although the figures compiled by his own Institute proved the exact opposite

(16:34):

Among other things,

(16:35):

The paddock paper calls for children to be made, to feel responsible. And I quote for the painful torture death of their parents and grandparents, if they do not follow the Corona rules, that is if they do not wash their hands constantly and don't stay away from their game grandparents,

(16:55):

Uh, word of clarification in Bergamo

(16:57):

The vast majority of deaths, 94% to be exact turned out to be the result, not of COVID-19, but rather the consequence of the government deciding to transfer sick patients. Sick was probably the cold or seasonal flu from hospitals to nursing homes in order to make room at the hospitals for all the COVID patients who ultimately never arrived there at the nursing homes, they then

infected old people with a severely weakened immune system, usually as a result of preexisting medical conditions. In addition of flu vaccination, which had previously been administered, had further weakened the immune systems of the people in the nursing albums in New York, only some, but by far not all hospitals were overwhelmed, many people, most of whom, again, elderly and had serious pre-existing medical conditions. And most of whom had it not been for the panic mongering would have just stayed at home to recover, raced to the hospitals there. Many of them fell victim to healthcare associated infections or nosocomial infections on the one hand and incidence of malpractice. On the other hand, for example, by being put on a respirator rather than receiving oxygen through an oxygen mask,

(18:18):

Again, to clarify

(18:20):

COVID 19, this is the current state of affairs is a dangerous disease, just like the seasonal flu is a dangerous disease. And of course COVID-19 just like the seasonal flu may sometimes take severe clinic, take a severe clinical course. And we'll sometimes it patients,

(18:38):

However,

(18:39):

As gypsies have shown, which were carried out in Germany in particular by the forensic scientist professor Klaus pusher in humbug, um, the fatalities he examined had almost all been caused by serious pre-existing conditions. And almost all of the people who had died had died at the very, at a very old age, just like an Italy, meaning they had lived beyond their average life expectancy. In this context, the following should also be mentioned the German RK, I, that is again, the equivalent of the CDC had initially strangely enough recommended that no autopsy be performed

(19:21):

And there are numerous

(19:23):

Credible reports. The doctors and hospitals worldwide had been paid money for declaring a deceased person, a victim of COVID-19, rather than writing down the true cause of death on the death certificate, for example, a heart attack or

(19:38):

A gunshot wound without the autopsies.

(19:41):

We would never know that the overwhelming majority of the alleged COVID-19 victims had died of completely different diseases, but not of COVID 19, the assertion that the lockdown was necessary because there were so many different infections with SARS cov two. And because the healthcare systems would be overwhelmed is wrong for three reasons. As we have learned from the hearings we conducted with the Corona committee and from other data that has become available in the meantime,

(20:10):

A,

(20:11):

The lockdown was imposed when the virus was already retreating. By the time the lockdown was imposed, the alleged infection rates were already dropping again, B there's already protection from the virus because of cross our T cell immunity.

(20:29):

Apart from

(20:29):

The above-mentioned lockdown being imposed, when the infection rates were already dropping, there's also cross or T-cell immunity in the general population against the Corona viruses con con con obtained in every flu or influenza wave. This is true. Even if this time around a slightly different strain of a Corona virus was at work. And that is because the body's own immune system remembers every virus it has ever battled in the past. And from this experience, it also recognizes the supposedly new, but still similar strain of the virus from the Corona family.

(21:08):

Incidentally,

(21:09):

That's how the PCR test for the detection of an infection was invented by now infamous professor Drestin at the beginning of January of 2020, based on this very basic knowledge, Mr. Dustin developed his PCR test, which supposedly

detects an infection with SARS cov two without ever having seen the real wool Han virus from China only having learned from social media reports that there was something going on and won. He started tinkering on his computer with what would become his Corona PCR test for this. He used an old SARS virus, hoping it would be sufficiently similar to the allegedly new strain of the Corona virus found in Wu Han. Then he sent the result of his computer tinkering to China to determine whether the victims of the alleged new Corona virus tested positive

(22:03):

They did. And that was

(22:05):

Enough for the world health organization to sound the pandemic alarm and to recommend the worldwide use of the dressed in PCR test for the detection of infections with the virus now called SARS cov two Dresden's opinion and advice was this must be emphasized once again, the only source for the German government when it announced the lockdown, as well as the rules for social distancing and the mandatory wearing of masks. And this must also be emphasized once again, Germany apparently became the center of especially massive lobbying by the pharmaceutical and tech industry, because the world was referenced to the allegedly disciplined Germans should do as the Germans do in order to survive the Panda.

(22:51):

See, and then

(22:52):

This is the most important part of our fact finding the PCR test is being used on the basis of false statements, not based on scientific facts with respect to infections.

(23:04):

In the meantime,

(23:05):

We have learned that these PCR tests contrary to the assertions of Messrs Dresden Wheeler and the who do not give any indication of an infection with any virus let alone and infection with SARS cov two, no, not only are PCR tests is expressly not approved for diagnostic purposes as is correctly noted on leaflets coming with these tests. And as the inventor of the PCR test Kary

Mullis has repeatedly emphasized instead, they're simply incapable of diagnosing any diseases.

(23:38):

Yes, that is correct

(23:42):

Prairie to the assertions of dress and Wheeler into who which have been making since the proclamation of the pandemic. A positive PCR test result does not mean that an infection is present. If someone tests positive, it does not mean that they're infected with anything, let alone with the contagious SARS, cov two virus, even the, even the United States, CDC,

(24:05):

Even this institution says agrees

(24:10):

With this. And I quote directly from page 38 of one of its publications on the Corona virus and the PCR tests dated July 13th, 2020 first bullet point says detection of viral RNA may not indicate the presence of infectious virus or that 2019 end cover is the causative agent for clinical symptoms. Second bullet point says the performance of this test has not been established for monitoring treatment of tooth 2019 and cough infection. Third bullet point says this test cannot rule out diseases caused by other bacterial or viral pathogens.

(24:53):

It is still not clear

(24:54):

Whether there has ever been a scientifically correct isolation of the Han virus, so that nobody knows exactly what we're looking for when we test, especially since this virus, just like the flu viruses mutates quickly, the PCR swaps take one or two sequences of a molecule that are invisible to the human eye and therefore need to be amplified in many cycles to make it visible. Everything over 35 cycles is as reported by the New York times and others considered completely unreliable and scientifically unjustifiable. However, the drugs didn't test as well as the who recommended tests that followed his example are set to 45 cycles. Can that be because of the desire to produce as many positive results in possible as possible, and thereby provide the basis for the false assumption that a large number of infections have been detected? The test cannot distinguish inactive and reproductive matter.

(25:58):

That means that a positive result may happen because the test detects, for example, a piece of debris, a fragment of a molecule, which may signal nothing else, then that the immune system of the person tested one, a battle with a common cold in the past, even dressed in a himself, declared in an interview with the German business magazine in 2014. At that time concerning the alleged, uh, detection of an infection with aversive virus, allegedly was the help of the PCR test that these PCR tests are so highly sensitive that even very healthy and non-infectious people may test positive. At that time. You also became very much aware of the powerful role of a panic and fear mongering, as you'll see at the end of the following quote, he said, then in this interview, if, for example, such a pathogen scurries over the nasal mucosa of a nurse for a day or so without her getting sick or noticing anything, then she's suddenly a Morris case. This could also explain the explosion of case numbers in Saudi Arabia.

(27:07):

In addition, the

(27:08):

Media there have made this into an incredible sensation. Has he forgotten this or is he deliberately concealing this in the Corona context? Because Corona is a very lucrative, lucrative business opportunity for the pharmaceutical pharmaceutical industry as a whole. And for Mr. Alford, Lund is coauthor in many studies and also a PCR test producer. In my view, it is completely implausible that he forgot. And 2020, what he knew about the PCR tests and told the business magazine in 2014

(27:46):

In short,

(27:47):

This test cannot detect any infection contrary to all false claim state stating that it can and infection a so-called hot infection requires requires that the virus or rather a fragment of a molecule, which may be a virus, is not just found somewhere. For example, in the throat of a person without causing any damage. That would be a cold infection. Rather, a hot infection requires that the virus penetrates into

(28:16):

The cells replicates there and

(28:18):

Causes symptoms such as headaches or a sore throat only leaves then is a person really infected in the sense of a hot sense of a hot infection, uh, because only then is a person contagious that is able to infect others until then it is completely harmless for both the hosts and all other people that the host comes into contact with. Once again, this means that positive test results, contrary to all other claims by dressed and Wheeler or the who mean nothing with respect to infections as even the CDC knows as quoted above meanwhile, a number of highly respected scientists worldwide assume that there has never been a Corona pandemic, but only a PCR test pandemic. This is the conclusion reached by many German scientists, such as professors back tea, rice, Merlin, Hawker, it's wildlife, and many others, including the above-mentioned professor, John UN Nita's and the Nobel Laureate professor Michael livid from Stanford university.

(29:24):

The most recent

(29:25):

Such opinion is that of the aforementioned Dr. Mike Eden, a former vice president and chief science officer at Pfizer, who held this position for 16 years. He and his co co-authors, all well-known scientists published a scientific paper in September of 2020. And he wrote a corresponding magazine article on September 20th, 2020 among other things he and they state. And I quote we're basing our government policy, right economic policy and the policy of restricting fundamental rights, presumably on completely wrong data and assumptions about the Corona virus. If it weren't for the test results that are constantly reported in the media, the pandemic would be over because nothing really happened. Of course, there are some serious individual cases of illness, but there are also some in every flu epidemic, there was a real wave of disease in March and April. But since then, everything has gone back to normal, only the positive results rise and sink wildly again and again, depending on how many tests are carried out, but the real cases of illnesses are over there. Cat, there can be no talk of a second wave.

(30:47):

The allegedly

(30:47):

New strain of a Corona virus is Dr. Eden continues only new, and that it is a new type of the long known Corona virus. There are at least four Corona viruses that are endemic and cause some of the common colds we experienced, especially in winter, they all have a striking sequence similarity to the Corona

virus. And because the human immune system recognizes the similarity to the virus that has now allegedly been newly discovered, a T-cell immunity has long existed in this respect. 30% of the population had this before the allegedly new virus even

(31:24):

Appeared. Therefore it

(31:26):

Is sufficient for the so-called herd immunity that 15 to 25% of the population are infected with you. Allegedly knew Corona virus to stop the further spread

(31:37):

Of the virus. And this

(31:39):

Has long been the case regarding the all-important PCR tests. You done writes in a piece called lies, lies and health statistics. The deadly danger of false positives dated September 20 is 2020. And I quote the likelihood of an apparently positive case. Being a false positive is between 89 to 94% or near certainty. Dr. Hayden and agreement with the professors of immunology Kimora from Germany, Capell from the Netherlands and Cahill from Ireland, as well as the microbiologist, Dr. [inaudible] from Austria, all of whom testified before the German Corona committee explicitly points out that a positive test does not mean that an intact virus has been found. The authors explain that what the PCR test actually measures is. And I quote simply the presence of partial RNA present in the intact virus, which could be a piece of dead virus, which cannot make the subject sick and cannot be transmitted and cannot make anyone else sick because of the complete unsuitability of the test for the detection of infectious diseases, tested positive and goats, sheep papayas, and even chicken wings. Oxford professor call Hennigan

(33:03):

Director of the center for evidence-based

(33:05):

Medicine writes that the COVID virus would never disappear. If this test practice were to be continued, but would always be falsely detected in much of what is tested lockdowns as Hayden and his colleagues found out, do not work Sweden with its less, a fair approach and great Britain with its strict lockdown. For example, have completely comparable disease and mortality statistics. The same was found by us scientists concerning the different us states. It makes no

difference to the incidence of disease, whether a state implements a lockdown or not. With regard to the now

(33:47):

Infamous Imperial

(33:48):

College of London's professor, uh, Neil Ferguson and his completely false computer model models, warning of millions of deaths. He says that, and I quote no serious scientist gives any validity to Ferguson's model. He points out with thinly veiled contempt. Again, I quote it's important that, you know, most scientists don't accept that it, that is Ferguson's model was even faintly, right? But the government is still wedded to the model. Ferguson predicted 40,000 Corona deaths in Sweden by may and a hundred thousand by June. But it remained at 5,800, which according to the Swedish authorities is equivalent to a mild flu. If the PCR tests had not been used as a diagnostic tool for Corona infections, there would not be a pandemic and there would be no lockdowns, but everything would have been perceived as just a medium or LightWave of influenza. These scientists conclude Dr. Heaton and his peace lies, lies and health statistics.

(34:55):

The deadly danger of false positives writes this test is fatally flawed, and must immediately be withdrawn and never used again in this setting unless shown to be fixed, uh, to be fixed. And towards the end of that article, I have have explained how a hopelessly performing diagnostic test has been and continues to be used, not for diagnosis of disease, but it seems solely to create, we are now let's take a look at the current actual situation regarding the severe damage caused by the lockdowns and other measures. Another detailed paper written by a official in the department of the interior who is responsible for risk assessment and the protection of the population against discs

(35:45):

Was leaked recently. Yeah, it's now

(35:47):

Called the false alarm paper. This paper comes to the conclusion that there was that there was, and is no sufficient evidence for serious health health risks for the population is claimed by draws and Wheeler and the hoop.

(36:02):

But the author says there is

(36:04):

Very much evidence of the Corona measures causing gigantic health and economic damage to the population, which he then describes in detail in this paper,

(36:14):

This, he concludes will lead

(36:16):

To very high claims for damages, which the government will be held responsible for. This has now become reality, but the papers author was suspended more and more scientists, but also lawyers recognize that as a result of the deliberate panic mongering and the Corona measures enabled by this panic democracy is in great danger of being replaced by fascist totalitarian models. As I already mentioned above in Australia, people who do not wear the masks, which more and more studies show are hazardous to health, um, or who allegedly do not wear them correctly, are arrested, handcuffed and thrown into jail in the Philippines. They run the risk of getting shot, but even in Germany and in other previously civilized countries, children are taken away from their parents. If they do not comply with quarantine regulations, distance regulations, and mask squares regulations, according to the psychologists and psychotherapists who testified before the Corona committee, children are traumatized on Mohs with the worst psychological consequences yet to be expected in the medium and longterm in Germany alone, 500,000 to 800,000 bankruptcies are expected in the fall to strike small and medium sized businesses, which formed the backbone of the economy.

(37:45):

This will result in incalculable tax losses and incalculably high and long-term social security money transfers for among other things. Unemployment benefits. Since in the meantime, pretty much everybody's beginning to understand the full devastating impact of the a completely unfounded Corona measures. I will riff. I will refrain from detailing this any further. I mean, I'll give you a summary of the legal consequences. Quinces. The most difficult part of a lawyer's work is always to establish the true facts, not the application of the legal rules to these facts. Unfortunately, a German lawyer does not learn this at law school, but his Anglo American counterparts do get the necessary training for this at their law schools. And probably for this reason, but because of the much more pronounced independence of the American Anglo American judiciary, the Anglo-American law of evidence is much more effective in practice than the German one, a court of law can only decide a legal dispute

correctly if it has previously determined the facts correctly, which is not possible without looking at all the evidence.

(38:58):

And that's why the law of evidence is so important on the basis of the facts summarized above in particularly those I'm sorry. In particular, those established with the help of the work of the German Corona committee, the legal evaluation is actually simple. It is simple for all civilized legal systems, regardless of whether these legal systems are based on civil law, which follows the Roman law more closely, or whether they're based on Anglo-American common law, which is only loosely connected to Roman law. Let's first take a look at the unconstitutionality of the measures, a number of German law professors, including professors King Grain, Morse Wig, Young Blued and Foster Corral have stated either in written expert opinions or in interviews in line with the serious doubts expressed by the former president of the federal constitutional court with respect to the constitutionality of the Corona measures that these measures, the Corona measures are without a sufficient factual basis and also without a sufficient legal basis and are therefore unconstitutional and must be repealed immediately.

(40:09):

Very recently, a judge tossed in SLIFE is his name declared publicly that the German judiciary just like the general public has been so panic-stricken that it was no longer able to administer justice properly. He says that the courts of law and I quote, have all too quickly waved through coercive measures, which for millions of people all over Germany represent massive suspensions of their constitutional rights. He points out the German citizens. Again, I quote are currently experiencing the most serious encroachment on their constitutional rights since the founding of the federal Republic of Germany in 1949, in order to contain the Corona pandemic, federal and state governments have intervened, he says massively. And in part threatening the very existence of the country as it is guaranteed by the constitutional rights of the people.

(41:09):

What about fraud, intentional infliction of damage and crimes against humanity based on the rules of criminal law, asserting false facts concerning the PCR tests or intentional brisk misrepresentation as it was committed by Messrs Dresden and Wheeler, as well as the, who can only be assessed as fraud, based on the rules of civil tort law. This translates into intentional infliction of damage. The German professor of civil law, Martin Trop supports this finding in public interviews in a comprehensive legal opinion of around

180 pages. He has familiarized himself with the subject matter, like no other legal scholar has done thus far.

(41:53):

And in particular has provided a detailed account of the complete failure

(41:58):

Of the mainstream media to report on the true facts of this so-called pandemic, masters dressed in Wheeler and Tetris of the who all knew based on their own expertise or the expertise of their institutions, that the PCR tests cannot provide any information about infections, but asserted over and over again to the general public that they can with their counterparts all over the

(42:25):

World, repeating this.

(42:27):

And they all knew and accepted. Then on the basis of their recommendations, the governments of the world would decide on lockdowns, the rules for social distancing and mandatory wearing of masks, the ladder representing a very serious health hazard as more and more independent studies and expert statements show under the rules of civil tort law. All those who have been harmed by these PCR tests, uh, PCR tests, induced, uh, induced lockdowns are entitled to receive full compensation for their losses.

(43:00):

In particular, there is a duty to compensate

(43:03):

That is a duty to pay damages for the loss of profits suffered by companies. And self-important employed persons as a result of the lockdown and other measures. In the meantime, however, the anti Corona measures have caused and continue to cause such devastating damage to the world's population's health and economy that the crimes committed by misters, Dresden Wheeler, and those who must be legally qualified as actual crimes against humanity as defined in section seven of the international criminal code.

(43:39):

How can we do something? What can we do? Well,

(43:43):

The class action is the best route to compensatory damages and to political consequences. The so-called class action lawsuit is based on English law and exists today in the USA. And in Canada, it enables a court of law to allow a complaint for damages to be tried as a class action lawsuit at the request of a plaintiff, if one, as a result of a damage inducing

(44:11):

Event to a large number

(44:13):

Of people suffer the same type of damage phrase differently. A judge can allow a class action lawsuit to go forward. If common questions of law and fact make up the vital component of the lawsuit here, the common questions of law and fact revolve the worldwide PCR test based lockdowns and its consequences, just like the VW diesel passenger cars were functioning products, but they were defective due to a so-called defeat device because they didn't comply with the emissions standards. So to the PCR tests, which are perfectly good products and other settings are defective products when it comes to the diagnosis of infections.

(44:56):

Now, if an American

(44:57):

Or a Canadian company, or an American or Canadian individual decides to Sue these persons in the United States or Canada for damages, then the court called upon to resolve this dispute. May upon request, allow this complaint to be tried as a class action lawsuit. If this happens all effective, two parties worldwide will be informed about this through publications in the mainstream media, and will thus have the opportunity to join this class action within a certain period of time to be determined by the court. It should be emphasized that nobody must join the class action, but every injured party can join the class. The advantage of the class action is that only one trial is needed, namely to try the complaint of a representative plaintiff who is affected in a manner typical of everyone else in the class, this is firstly cheaper and secondly, faster than hundreds of thousands or more individual lawsuits. And thirdly, it imposes less of a burden on the courts for fleet. As a rule, it allows a much more precise examination of the accusations and would be possible in the context of hundreds of thousands or more likely in this Corona setting, even millions of individual lawsuits

(46:16):

In particular,

(46:17):

The well-established polished and proven Anglo American law of evidence with its pretrial discovery is applicable. This requires that all evidence relevant for the determination of the lawsuit is put on the table in contrast to the typical situation in German lawsuits with structural imbalance, that is lawsuits involving on the one hand a consumer on the one hand a consumer. And on the other hand, a powerful corporation, the with withholding or even destruction of evidence is not without consequence, rather the party withholding or even destroying evidence loses the case under these evidence rules here in Germany, a group of tort lawyers have banded together to help their clients with recovery of damages. They have provided all relevant information and forms for German plaintiffs to both estimate how much damage they have suffered and join the group or class of plaintiffs who will later joined the, uh, the, uh, class action when it goes forward, either in Canada or the U S initially this group of lawyers had considered to also collect and manage the claims for damages of other non German plaintiffs. But this proved to be unmanageable,

(47:35):

However, through

(47:36):

An international lawyers network, which is growing larger by the day, the German group of attorneys provides to all of their colleagues and all other countries free of charge, all relevant information, including expert opinions and testimonies of experts showing that the PCR tests cannot detect infections. And they also provide them with all relevant information as to how they can prepare and bundle the claims for damages with their clients so that they too can assert their client's claims for damages either in their home countries, courts of law or within the framework of the class action. As explained above these scandals was Corona facts gathered mostly by the Corona committee and summarized above are the very same facts that will soon be proven to be true either in one court of law or in many courts of law all over the world. These are the facts that will pull the masks of the faces of all those responsible for these crimes, to the politicians who believe those corrupt people. These facts are here by offered as a lifeline that can help you readjust your course of action and start the long overdue public scientific discussion at not go down with those charlatan's and criminals. Thank you.
